AROUND THE SHOW

The show brought a lot to the table, for all types of car enthusiasts from different generations, but it mainly celebrated British motorsport heritage.

It is a show where past meets present. From heritage vehicles to modern day race cars. From factory made pieces of art to refurbished and tuned past and modern classics.

/MATERIALS

It was interesting to see that even motorsport companies are making ethical decisions when it comes to what materials they will use for their parts.

MATERIALS / NATURAL FIBRE COMPOSITE

Because of its sustainable and mechanical features Natural Fibre Composite is becoming more prominent.
